

PRODUCT DATA SHEET

NON DETERGENT 50W CODE: 519

Page | 1 OF 1

Scot Lubricants LLC (Scot) Non Detergent Motor Oils are a general purpose motor oil that is formulated with select, high quality base oils. It is intended for use in non-critical gasoline engines operating under conditions which do not require a premium high detergent motor oil. Scot Non Detergent Motor Oils are recommended for use in older, worn engines with high oil consumption where an API service classification SA/SB motor oil can be used. Scot Non Detergent Motor Oils are available in 10W, 20W,30W, 40W and 50W SAE viscosity grades.

APPLICATIONS:

Scot Non Detergent Motor Oils may be recommended for light engines that call for a mineral non additive or a lighter additive motor oil, compressors, AGMA Non EP Gear Oils, circulating oils and low pressure hydraulic systems.

CAUTION: This oil is rated API SB and is not suitable for use in most gasoline powered automotive engines built after 1951, use in more modern engines may cause unsatisfactory performance or equipment harm. Follow equipment manufacturer recommendations and conventional guides.

AVAILABLE IN:

- Bulk
- 55 Gallon Drums
- 16 Gallon Quarter Drums

SAE GRADE	10W	20W	30W	40W	50W
Product Code	515	518	516	517	519
