

**PRODUCT DATA SHEET**

**2 CYCLE ENGINE OIL TC-W3 CODE: 591**

Page | 1 OF 1

Scot Lubricants (Scot) 2 Cycle Engine TC-W3 oil is a high performance, multi-use two-stroke engine oil, formulated for use in a variety of two cycle applications. Low ash formula minimizes combustion chamber deposits and plug fouling, while providing optimum protection from friction and wear. High flash point (200°F) for safe storage. NMMA certified TC-W3® License Number 3-98001

Scot's 2 Cycle Engine oil is recommended for use in all applications where NMMA TC-W, TC-WII, or TC-W3 quality oils are recommended. Approved for use in both air and water cooled engines, pre-mixed systems, and oil injector systems. Suitable for most outboards, snowmobiles, chain saws, string trimmers, mopeds, motorcycles, and scooters.

**TYPICAL CHARACTERISTICS**

Follow equipment manufacturer's recommendations and conventional guides to determine the best oil for specific application.

<b>Product Code</b>	<b>591</b>
Viscosity @100°C cSt	7.4
Flash Point °F/°C	205/95
Pour Point °C	-30
Nitrogen %Weight	0.145
Total Base Number	3.78
