

## PRODUCT DATA SHEET

Concrete Form Release Oil CODE 978

Page | 1 OF 1

Scot Lubricants LLC (Scot) Concrete Form Release Oil is light colored, non-staining, low volatile organic content (VOC) oil for use on concrete forms where an excellent surface finish is desired. Scot's Concrete Form Release Oil is an exceptional, general-purpose form release oil that is designed to provide clean and easy separation of concrete from wood and metal forms. Low Viscosity and pour point allows year round use in spray or brush application. Wood and metal forms are kept clean and rusting is minimized on steel forms. Scot's Concrete Form Release Oil also serves as an excellent protector for spatter and mixer application.

### FEATURES

- Clean, easy mold separation
- Excellent surface finish, eliminates blemishes
- Prevents staining, build-up and corrosion of forms
- Provides even spreading of the oil on wood or steel forms and prevents cement sticking on forms.
- Meets EPA AIM and OTC Phase I State VOC requirements

### APPLICATIONS

Scot's Concrete Form Release Oil non-staining characteristics makes it an outstanding product for applications that require exceptional surface finish, including production of burial vaults, white stone furniture and other specialty concrete products.

### SELECTION

Listed below are the typical physical and chemical characteristics of Scot's Concrete Form Release Oil. Follow equipment manufacturer recommendations and conventional guides.

<b>Product Code</b>	<b>978</b>
